JAVA DEVELOPER

Software Developer with over 2 years of experience in designing and developing scalable web applications using Java, Spring Boot, and SQL. Proficient in building RESTful APIs, integrating backend systems, and writing optimized queries for high-performance databases. Experienced in Agile methodologies and full SDLC. Committed to clean code practices, team collaboration, and delivering reliable, business-aligned software solutions.

Experience

SOFTWARE DEVELOPER

Expleo, 08/2023 - 08/2024, chennai

- Worked as a Software Developer at Expleo, contributing to the design, development, and maintenance of scalable software solutions.
- Gained hands-on experience in the software development lifecycle (SDLC), including coding, debugging, testing, and deployment.
- Collaborated with cross-functional teams in Agile environments to deliver high-quality applications.
- Proficient in core programming languages such as Java, spring boot and SQL, with exposure to tools like Git and JIRA.

SYSTEM ENGINEER

Crown Solutions, 04/2022 - 04/2023, chennai

- As an Associate System Engineer at Crown Solutions, I contributed to the design, implementation, and maintenance of IT infrastructure and systems for diverse client projects.
- My role involved collaborating with cross-functional teams to deliver efficient and scalable solutions, ensuring optimal system performance and reliability.
- Analyzed system logs from multiple sources such as application logs, firewall logs.
